Communities That Care & TexasCTC

The Communities That Care (CTC) is a proven scientific operating system for bringing evidence-based prevention programs (EBPs) into colleges and neighborhoods. It is designed to prevent community-wide social problems, such as crimes, diseases, and poverties.

Texas Communities That Care (TexasCTC) aims to distribute the CTC-System to all colleges and neighborhoods. We use proactive techniques to provide CTC-Awareness and support to the colleges and communities to facilitate the CTC model .

The CTC Operating System

- www.communitiesthatcare.net
- The 3s Feature of CTC: Community-wide, coalition-based, comprehensive;
- The Trifecta Benefits of CTC -Effective, Sustainable, and Efficient (ESE);
- CTC for 20+ Years in 500+ communities;
- The CTC Rtns $10 for every $1 invested.

Key Terms

- Evidence-Based Service-Learning (EBSL)
- The use of SL to support CTC
- SL - using class projects to serve others
- WITS: Willingness to Support
- WITS Survey: Instrument to measure WITS
- Measurable – for strength and levels..#..%..
- Malleable – increase or decrease..>..<.

The CTC-Solution

- Determine the WITS4CTC

- Activate EBSL platform for College-CTC

Example:

1 student x 2hrs per Wk or 100hrs per yr x $10 value = added $1,000 per yr from WITS4CTC

HOW Can Colleges Support CTC-Projects?

How CTC Supports College T.R.S.

Teaching

-Solutions for social problems impacting all local college individuals, peers, families, schools, and communities (IPFSCs)

Research

-Collecting, administering, analyzing, and publishing original data that impacts the local college IPFSCs

Service

-Participate in EBPs that impact the local college IPFSCs

Conclusion

- Colleges have the best CTC-resources
- SL is a renewable and natural CTC-resource
- College support is critical to CTC success
- College Leaders are the Key to CTC-Success
