Resolution to Declare Support for Communities That Care (CTC) for the City of Hempstead

This is a resolution to endorse the Communities That Care (CTC), a community health prevention program (www.communitiesthatcare.net) for the City of Hempstead, as directed and proposed by Dr. Sam Arungwa, a CTC-trainer and citizen of the City of Hempstead;

1. Whereas CTC is one of the most effective, sustainable, and efficient (ESE) model for community-wide prevention of socio-economic problems related to crimes, diseases, and poverties (CDPs);
2. Whereas this Hempstead City Council was elected to help prevent the risks of social-economic problem such as CDPs that threaten our voters and taxpayers;
3. Whereas Dr. Arungwa has conducted several workshops and CTC-awareness research over the years;
4. Be it therefore resolved that the City of Hempstead City Council hereby supports the immediate adoption of Communities That Care (CTC) for the City of Hempstead and Waller County, being directed by Dr. Sam Arungwa, as this CTC provides the needed evidence-based programs (EBPs) that are scientifically proven to save our taxpayer dollars and also protect vulnerable populations. The City of Hempstead is committed to social economic developments, and this (CTC) model (www.communitiesthatcare.net) is very consistent with our goals because it is effective, sustainable, and efficient (ESE):

a). CTC is proven to be "effective" in the use of evidence-based practices (EBPs) to significantly reduce and prevent juvenile crimes and the problem behaviours;

b). CTC is “sustainable” because it will attract the free resources of our public/private stakeholders within and outside the City of Hempstead and Waller County;

c). CTC is “efficient” because it is projected to be more than 500% profitable.

We further resolve that by signing this resolution, we pledge to work together with Dr. Sam Arungwa, and all our CTC stakeholders, to help ensure that the City of Hempstead and Waller County becomes the best communities in Texas, America, and the world!
